

TROUW PREMIXES

The best premixes that you can rely on

Why Trouw Premixes?

PREMIX ESSENTIALS

More than 80 years of profound knowledge of premix formulation and manufacturing

QUALITY CONTROL

Careful ingredient screening and stringent quality control based on five quality principles of Nutrace

BEST SUPPORT

Premixes designed to meet your manufacturing and technical needs with our complete support

SUMMARY

NAME: Trouw Premixes

BENEFITS AND FEATURES:

- Higher bioavailability of micro-nutrients
- Higher stability
- Proven consistent results
- Quality assurance
- Optimum size for stable mixing properties

WHAT MAKES US UNIQUE?

The process of **Premix Designing**. We understand the science of providing a premix with the right physical characteristics.

We ensure optimum homogeneity and flowability for best results.

Premixing technology has been mastered through decades of experience and **extensive use of R&D** to ensure consistency in performance without compromising safety.

DELIVERING NUTRIENTS FOR BEST PRODUCTION: Trouw Nutrition's Integrated Strategy

Trouw Premixes have been proven to deliver micro-nutrients viz. vitamins, minerals, trace minerals etc. to assure the users of the desired results consistently.
